

FISCAL NOTE

SB 1050 - HB 1056

March 3, 1997

SUMMARY OF BILL: (1) Authorizes the Information System Council (ISC) to establish a program to lease state communications services to public and private agencies as set forth in policies and procedures prepared by the Commissioner of Finance and Administration and approved by the Comptroller. The Council will establish fees consistent for all users on a cost recovery method. Disputes about fees will be resolved by the Board of Standards; (2) Gives the ISC authority to approve the license or sale of the state's information systems interest or copyright to a vendor under policies prepared by Finance & Administration and approved by the Comptroller.

ESTIMATED FISCAL IMPACT:

Increase State Revenues - Exceeds \$100,000

Increase State Expenditures - Exceeds \$100,000

Assumes that any fees established for certain public and private (non-profit) agencies by the Information Systems Council will be based on a cost recovery method to offset any expansion of the development of information systems needed from the access given to such users. The net impact is estimated not to be significant.

CERTIFICATION:

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.
